OUR BACKGROUND

GTGlobal Group is a holding of companies dedicated to the trading, distribution and transportation of petroleum products and provision of related services. The company was established in 2008 by the alliance of Mr. Herbert Tejada and Mr. Rolando Garzaro.

Mr. Tejada has more than 35 years of experience in the transportation and petroleum industries. In 1996, Mr. Tejada founded the group PetroServicios, as an exclusive wholesaler of ExxonMobil in Guatemala.

Mr. Rolando Garzaro joined Esso Standard Oil in 1990 as an operator in La Aurora Airport Plant. During his career with Esso, he performed different managerial positions in Chemicals, Terminal Operations, Lubricants and Marine Fuels until 2008, when he resigned, to establish GTGlobal Group with Mr. Tejada.

Since its start, the operations of GTGlobal Group have been financed through the capital of the shareholders and then with the earnings generated by the business. Due to the continuous growth of the business, the operations are supported with important credit lines from the most prestigious regional banks.

Our Mission

To provide our services with a flawless performance, exceeding the highest expectations of our customers, ensuring the integrity of our team members, of our operations, and of the environment where we operate.

Our Vision

To be recognised by our customers and competitors as one of the best service providers in the region.

Our Values

- To love Jesus, our Lord, the owner of GTGlobal Group.
- Business ethics, respect and integrity.

MARINE

Chart a steady course with high quality marine fuels and world-class service from a leading supplier.

GTBunkers operates in all the ports of Guatemala, El Salvador, Panama and Colombia supplying marine fuels and lubricants by pipeline, tank truck or barge, depending on the availabilities on each location. We also supply aviation fuels, gasolines and lubricant for the fishing fleets in Guatemala, El Salvador and Panama.

In addition, **GTBunkers** trades marine fuels in Mexico, Belize, Nicaragua, Honduras, Costa Rica, Colombia, Peru, and the Caribbean. Our portfolio of customers includes the main international traders and brokers and the US Department of Defense.

We deliver marine fuels following the most strict quality assurance procedures, continuously monitoring the product integrity from the storage facility to the ship's manifold.

All the products we supply comply with the ISO 8217 Standard.

AVIATION

Reaching the skies, on time and safely with top quality fuels.

GTAviation operates as trader in several locations in the Caribbean, Central, and South America, having solid agreements with the main into-plane operators in several Airports in the region. We have performed into-plane contracts with the US Department of Defense since 2012 in different locations, such as Bermuda, El Salvador, Barbados, Grand Cayman, Bahamas, Perú, Colombia and Nicaragua.

We have performed specialized operations of aviation fuel supply to military needs around the region as well as supply of aviation fuel needed in for helicopters in ships

We provide aviation fuel to agricultural aerial spraying operations as well as into-plane operations to general aviation in Guatemala and El Salvador in commercial agreements with local aviation terminals.

COMMERCIAL / INDUSTRIAL

RETAIL

GTGlobal Group has operated retail service stations of Puma Energy in Guatemala and Terpel in Panama. The operation of service stations of Texaco, Uno and Shell in Guatemala, is under analysis as well as looking forward to operate service stations in El Salvador as a new business opportunity in this country.

INDUSTRIAL FUELS

PetroSolutions, member of GTGlobal Group, distributes industrial fuels in Guatemala, El Salvador, Panama and Colombia, delivering gasolines, diesel, kerosene and fuel oil to all kind of industrial customers; operating a fleet of specialized trucks under the highest industry standards.

Offering value added solutions of fuel supply needs to customers in the market especially to customers in retail deliveries as well as wholesale customers.

EMERGENCY RESPONSE
